[Home->Machine->Cutting Machine->Marble Gang Saw type YXCM-03](#)

This machine is for cutting marble blocks. It is useful to granite by using special diamond segment. Our experience of making gang saw allowed us to develop it to reach its construction quality, technical features and use of selected materials.

Very sturdy structure in high quality steelwork. High quality sliding groups with constant lubrication. Stress resistant blade frame for keeping up the right tension of 80 blades. Electrical centralized switchboard grouping all functions and supervisions of the machine.
